

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

Aluminum A6063 A-T5

1.2. Where do you source the individual components or raw materials from?

- From the country of production of this product
- From the continent where we produce this product
- worldwide

**1.3. Are the raw materials or components certified or approved according to standards?
If so, which ones?**

Aluminum A6063 A-T5

1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

Aluminum 99,3%
Lacquer 0,7%

1.5. How high is the proportion of renewable raw materials in your product as a %.

For creating decorative handles in high quality we are only working with virgin material.
If errors during production, item can be re-melted and used, which means 0% waste of material during process.

1.6. What % of your raw materials used are recycled materials?

-

1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

-

2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office
- in Machining and finishing done in China.

2.2. Is the production operation certified? If yes, in accordance with which one?

ISO 9001

2.3. How do you grade production energy consumption?

- low
- normal
- high

2.4. What energy source is used for production?

0 % of power from renewable energy

2.5. What % of renewable energy comes from in-house production?

0 % of the electricity comes from renewable, self-generated energies

2.6. The production waste is

- for 100 % returned to the production cycle
- for % recycled
- for % broken down organically (organic waste)
- for % thermically recycled (residual waste)
- for % professionally disposed of as specialist waste
- for %

2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?

Furnipart has successfully achieved Cradle to Cradle Certified® Bronze for the products under the name: Decorative Aluminium Profiles for Cabinets. Furnipart has scored silver in the category Water Stewardship on the Cradle to Cradle scorecard. The factory is subject to well-developed and enforced regulations pertaining to effluent quality and has not been subjects to any significant discharge violations.

2.8. Where required, additional comments about how you obtain energy or dispose of waste

3 | PACKAGING

3.1. What type of packaging do you use?

- disposable packaging reusable packaging both disposable and reusable
 we do not package

3.2. Your packaging material for this product is comprised of

50 % from renewable materials 50 % from recycled material
% from

3.3. Type and material, packaging description

Carton for outer box
Foam + polybag for protecting item

3.4. Your packaging material is produced in

- country of the head office same continent where the product is produced
 intercontinental

3.5. Where required, additional comments about your packaging

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

- as quickly available warehouse goods just in time

4.2. You distribute your product (multiple answers possible)

- directly via wholesale trade (online & stationary)
 via stationary retail trade via online retail trade

4.3. Where required, additional comments about your Green Logistic

Orders are grouped for delivery (per customer, per area) to avoid too frequent trips.
Larger orders are grouped and loaded on pallets, which means less packaging waste.

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

20-30 year hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

Daily cleaning is done with a hard-wrung cloth

5.4. Where required, additional comments about the life cycle of the product

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely

6.2. If so, where, for example?

For re-use in similar components or other products which use aluminum as material in product.

6.3. How can it otherwise be disposed?

- | | | |
|---|--|---|
| <input type="checkbox"/> return to manufacturer or dealer | <input type="checkbox"/> recycling centre | <input type="checkbox"/> residual waste |
| <input type="checkbox"/> organic waste | <input type="checkbox"/> thermal recycling | <input type="checkbox"/> specialist waste |
| <input checked="" type="checkbox"/> Remount from mounted item, and send to scrap, actually there is a economic value in selling scrap metal | | |
| <input type="checkbox"/> | | |

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS

What else you would like to say about the product

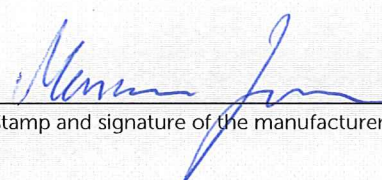

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)
carbon footprint for companies: www.ecockpit.de

In December 2023, furnipart was awarded ISO 9001 certification, an internationally recognised standard that ensures we meet the needs of our clients through an effective quality management system.
