

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

1.2. Where do you source the individual components or raw materials from?

From the country of production of this product

From the continent where we produce this product

worldwide

1.3. Are the raw materials or components certified or approved according to standards?
If so, which ones?

1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

1.5. How high is the proportion of renewable raw materials in your product as a %.

1.6. What % of your raw materials used are recycled materials?

1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

2.1. Where do you produce your product? (please specify also several production locations)

country of the head office
in

2.2. Is the production operation certified? If yes, in accordance with which one?

2.3. How do you grade production energy consumption?

low normal high

2.4. What energy source is used for production?

% of power from renewable energy

2.5. What % of renewable energy comes from in-house production?

% of the electricity comes from renewable, self-generated energies

2.6. The production waste is

- for % returned to the production cycle
- for % recycled
- for % broken down organically (organic waste)
- for % thermically recycled (residual waste)
- for % professionally disposed of as specialist waste
- for %

2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?

2.8. Where required, additional comments about how you obtain energy or dispose of waste

3 | PACKAGING

3.1. What type of packaging do you use?

disposable packaging reusable packaging both disposable and reusable
we do not package

3.2. Your packaging material for this product is comprised of

% from renewable materials % from recycled material
% from

3.3. Type and material, packaging description

3.4. Your packaging material is produced in

country of the head office same continent where the product is produced
intercontinental

3.5. Where required, additional comments about your packaging

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

as quickly available warehouse goods just in time

4.2. You distribute your product (multiple answers possible)

directly via wholesale trade (online & stationary)
via stationary retail trade via online retail trade

4.3. Where required, additional comments about your Green Logistic

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

shows traces of use and/or a nice patina

shows a few traces of use, generally not for a while

shows rather less traces of use, stays almost unaltered

is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

5.4. Where required, additional comments about the life cycle of the product

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

Yes No

partly, namely

6.2. If so, where, for example?

6.3. How can it otherwise be disposed?

return to manufacturer or dealer
organic waste

recycling centre
thermal recycling

residuel waste
specialist waste

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS

What else you would like to say about the product

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)
