

# Sustainability Statement

## 1 | RAW MATERIALS AND CONSTITUENTS

**1.1.** What components or raw materials do you work with?

**1.2.** Where do you source the individual components or raw materials from?

From the country of production of this product

From the continent where we produce this product

worldwide

**1.3.** Are the raw materials or components certified or approved according to standards?  
If so, which ones?

**1.4.** Please clarify the material structure of the final product as well as the material composition expressed in %.

**1.5.** How high is the proportion of renewable raw materials in your product as a %.

**1.6.** What % of your raw materials used are recycled materials?

**1.7.** Where required, additional comments about where you obtain your raw materials from and their origin:

**2.1. Where do you produce your product?** (please specify also several production locations)

country of the head office  
in

**2.2. Is the production operation certified? If yes, in accordance with which one?**

**2.3. How do you grade production energy consumption?**

low                      normal                      high

**2.4. What energy source is used for production?**

% of power from renewable energy

**2.5. What % of renewable energy comes from in-house production?**

% of the electricity comes from renewable, self-generated energies

**2.6. The production waste is**

- for        % returned to the production cycle
- for        % recycled
- for        % broken down organically (organic waste)
- for        % thermically recycled (residual waste)
- for        % professionally disposed of as specialist waste
- for        %

**2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?**

**2.8. Where required, additional comments about how you obtain energy or dispose of waste**

## 3 | PACKAGING

### 3.1. What type of packaging do you use?

disposable packaging      reusable packaging      both disposable and reusable  
we do not package

### 3.2. Your packaging material for this product is comprised of

% from renewable materials      % from recycled material  
% from

### 3.3. Type and material, packaging description

### 3.4. Your packaging material is produced in

country of the head office      same continent where the product is produced  
intercontinental

### 3.5. Where required, additional comments about your packaging

## 4 | WAREHOUSING AND LOGISTICS

### 4.1. You produce this product

as quickly available warehouse goods      just in time

### 4.2. You distribute your product (multiple answers possible)

directly      via wholesale trade (online & stationary)  
via stationary retail trade      via online retail trade

### 4.3. Where required, additional comments about your Green Logistic

## 5 | PRODUCT LIFE CYCLE

### 5.1. With proper daily use, your product lasts about

hours/months/years (operational)

### 5.2. How does the product keep its appearance when used at this frequency?

The product:

shows traces of use and/or a nice patina

shows a few traces of use, generally not for a while

shows rather less traces of use, stays almost unaltered

is a consumable and regularly replaced (e.g. candle, soap etc.)

### 5.3. What is there to say about care/maintenance?

### 5.4. Where required, additional comments about the life cycle of the product

## 6 | DISPOSAL AND RECYCLING

### 6.1. Can your product be recycled after the life cycle?

Yes      No

partly, namely

### 6.2. If so, where, for example?

**6.3. How can it otherwise be disposed?**

return to manufacturer or dealer  
organic waste

recycling centre  
thermal recycling

residuel waste  
specialist waste

**6.4. Where required, additional comments about disposal and recycling**

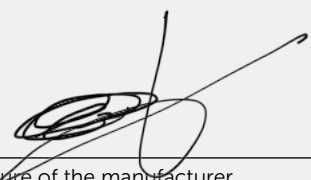

**7 | MISCELLANEOUS**

**What else you would like to say about the product**

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)  
carbon footprint for companies: [www.ecockpit.de](http://www.ecockpit.de)
