

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

- anodized aluminum
- Water-based clear lacquer
- Real oak and walnut
- MDF-Wood

1.2. Where do you source the individual components or raw materials from?

- From the country of production of this product
- From the continent where we produce this product
- worldwide

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

Aluminum plates DIN EN 573-3 / 485-1,2,3
Lacquers ISO 9001 / ISO 14001 / RAL GZ 430

1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

75% lacquered MDF wood
25% anodized aluminum
depends on the customer choice!

1.5. How high is the proportion of renewable raw materials in your product as a %.

Wood 80 %
Aluminium 0%

1.6. What % of your raw materials used are recycled materials?

1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

2.1. Where do you produce your product? (please specify also several production locations)

country of the head office

in

2.2. Is the production operation certified? If yes, in accordance with which one?

no

2.3. How do you grade production energy consumption?

low

normal

high

2.4. What energy source is used for production?

% of power from renewable energy

2.5. What % of renewable energy comes from in-house production?

% of the electricity comes from renewable, self-generated energies

2.6. The production waste is

for % returned to the production cycle

for 95 % recycled

for % broken down organically (organic waste)

for % thermically recycled (residual waste)

for % professionally disposed of as specialist waste

for %

2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?

2.8. Where required, additional comments about how you obtain energy or dispose of waste

Aluminum is 100% recycled

3 | PACKAGING

3.1. What type of packaging do you use?

- disposable packaging reusable packaging both disposable and reusable
 we do not package

3.2. Your packaging material for this product is comprised of

% from renewable materials 75 % from recycled material
% from

3.3. Type and material, packaging description

Continuous corrugated cardboard, fleece, foil

3.4. Your packaging material is produced in

- country of the head office same continent where the product is produced
 intercontinental

3.5. Where required, additional comments about your packaging

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

- as quickly available warehouse goods just in time

4.2. You distribute your product (multiple answers possible)

- directly via wholesale trade (online & stationary)
 via stationary retail trade via online retail trade

4.3. Where required, additional comments about your Green Logistic

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

Easy care
No need for chemical cleaning agents

5.4. Where required, additional comments about the life cycle of the product

Quality and high-quality craftsmanship stand for a long service life

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely Aluminum recycling, new anodizing / furniture parts could also be renewed

6.2. If so, where, for example?

craft businesses

6.3. How can it otherwise be disposed?

return to manufacturer or dealer

organic waste

recycling centre

thermal recycling

residual waste

specialist waste

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS
