

# Sustainability Statement

## 1 | RAW MATERIALS AND CONSTITUENTS

### 1.1. What components or raw materials do you work with?

wood materials  
metal fittings  
small fittings made from recyclable plastic

### 1.2. Where do you source the individual components or raw materials from?

- From the country of production of this product
- From the continent where we produce this product
- worldwide

### 1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

wood material certified by PEFC and TSCA Title VI / CARB2  
fittings from producer with ISO 50001-Certification  
furniture standardized with the GS mark of the LGA QualiTest GmbH, RAL-certified "Made in Germany" and AMK

### 1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

The furniture consists of 85% wood materials and 15% metal and plastic.

### 1.5. How high is the proportion of renewable raw materials in your product as a %.

80%

### 1.6. What % of your raw materials used are recycled materials?

95%

### 1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

./.

**2.1. Where do you produce your product?** (please specify also several production locations) country of the head office in **2.2. Is the production operation certified? If yes, in accordance with which one?****2.3. How do you grade production energy consumption?** low normal high**2.4. What energy source is used for production?** 0 % of power from renewable energy**2.5. What % of renewable energy comes from in-house production?** 0 % of the electricity comes from renewable, self-generated energies**2.6. The production waste is**for  % returned to the production cyclefor  40 % recycledfor  % broken down organically (organic waste)for  % thermally recycled (residual waste)for  % professionally disposed of as specialist wastefor  60 % thermal utilisation in production**2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?** No water is used in the production process.**2.8. Where required, additional comments about how you obtain energy or dispose of waste** Wood residues and chips are partly thermally recycled or returned to the cycle for reuse.

## 3 | PACKAGING

### 3.1. What type of packaging do you use?

- disposable packaging     reusable packaging     both disposable and reusable  
 we do not package

### 3.2. Your packaging material for this product is comprised of

0 % from renewable materials    100 % from recycled material  
% from

### 3.3. Type and material, packaging description

97% Cardboard boxes, paper or cardboard  
3 % shrink wrap or strapping

### 3.4. Your packaging material is produced in

- country of the head office     same continent where the product is produced  
 intercontinental

### 3.5. Where required, additional comments about your packaging

A waste disposal contract number TV000131 has been signed with the company RKT Recycling Kontor Transportverpackungen GmbH & Co. KG. This ensures that all the packaging materials concerned are processed correctly and that all the requirements of the Packaging Directive are met.

## 4 | WAREHOUSING AND LOGISTICS

### 4.1. You produce this product

- as quickly available warehouse goods     just in time

### 4.2. You distribute your product (multiple answers possible)

- directly     via wholesale trade (online & stationary)  
 via stationary retail trade     via online retail trade

### 4.3. Where required, additional comments about your Green Logistic

Own, fuel-saving fleet with the latest lorries and our own employees.

## 5 | PRODUCT LIFE CYCLE

### 5.1. With proper daily use, your product lasts about

on lifetime  hours/months/years (operational)

### 5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

### 5.3. What is there to say about care/maintenance?

please read Ballerina-instructions for use and care

<https://www.ballerina-kitchens.eu/brochures-and-films/downloads>

### 5.4. Where required, additional comments about the life cycle of the product

The furniture can be assembled and disassembled multiple times.

## 6 | DISPOSAL AND RECYCLING

### 6.1. Can your product be recycled after the life cycle?

Yes  No

partly, namely

### 6.2. If so, where, for example?

./.

**6.3. How can it otherwise be disposed?**

return to manufacturer or dealer

organic waste

recycling centre

thermal recycling

residual waste

specialist waste

**6.4. Where required, additional comments about disposal and recycling**

./.

**7 | MISCELLANEOUS**

**What else you would like to say about the product**

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)
