

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

quartz, polyester resin, pigments

1.2. Where do you source the individual components or raw materials from?

- ☐ From the country of production of this product
- ☐ From the continent where we produce this product
- ☒ worldwide

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

90% Quartz, 10% polyester resins

1.5. How high is the proportion of renewable raw materials in your product as a %.

1.6. What % of your raw materials used are recycled materials?

1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

2.1. Where do you produce your product? (please specify also several production locations)☐ country of the head office☒ in Asia**2.2. Is the production operation certified? If yes, in accordance with which one?**

Caesarstone is ISO 9001, 14001 & 45001 certified. Any other certifications Caesarstone holds is related to the products. Caesarstone is responsible for the quality assurance of the product production.

2.3. How do you grade production energy consumption?☐ low☒ normal☐ high**2.4. What energy source is used for production?**

0 % of power from renewable energy

2.5. What % of renewable energy comes from in-house production?

0 % of the electricity comes from renewable, self-generated energies

2.6. The production waste is

for 0 % returned to the production cycle

for 0 % recycled

for 0 % broken down organically (organic waste)

for 0 % thermically recycled (residual waste)

for 0 % professionally disposed of as specialist waste

for %

2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?

100% production wastewater recycled

2.8. Where required, additional comments about how you obtain energy or dispose of waste

100% reuse or recycling, for zero waste to landfill at all production sites by 2030.

3 | PACKAGING

3.1. What type of packaging do you use?

- ☐ disposable packaging ☐ reusable packaging ☒ both disposable and reusable
☐ we do not package

3.2. Your packaging material for this product is comprised of

% from renewable materials % from recycled material
 % from

3.3. Type and material, packaging description

wooden racks, polymer based layer

3.4. Your packaging material is produced in

- ☐ country of the head office ☒ same continent where the product is produced
☐ intercontinental

3.5. Where required, additional comments about your packaging

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

- ☒ as quickly available warehouse goods ☐ just in time

4.2. You distribute your product (multiple answers possible)

- ☐ directly ☒ via wholesale trade (online & stationary)
☐ via stationary retail trade ☐ via online retail trade

4.3. Where required, additional comments about your Green Logistic

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

25 ~~hours/months~~/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- ☐ shows traces of use and/or a nice patina
- ☐ shows a few traces of use, generally not for a while
- ☒ shows rather less traces of use, stays almost unaltered
- ☐ is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

Scratch-, heat-, impact- resistance, non-porous, hygienic.

5.4. Where required, additional comments about the life cycle of the product

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

☐ Yes ☒ No

☐ partly, namely

6.2. If so, where, for example?

6.3. How can it otherwise be disposed?

☐ return to manufacturer or dealer

☐ organic waste

☐ recycling centre

☐ thermal recycling

☐ residual waste

☒ specialist waste

☐☐

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS

What else you would like to say about the product

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)

carbon footprint for companies: www.ecockpit.de

Caesarstone holds an Integrated Management System certification covering ISO 9001 (Quality Management), ISO 14001 (Environmental Management), and ISO 45001 (Occupational Health & Safety).

Following the early-2026 transition to external manufacturing sites, the management framework requires adaptation to the new production model. Caesarstone is therefore evaluating alignment with ISO 20400, which guides the integration of environmental and sustainability considerations into procurement at external sites. We are currently assessing the implications of ISO 20400, and a final decision will be made upon the expiry of the current certification cycle. ISO 9001 will remain unchanged, as quality management remains Caesarstone's responsibility.
