Product details

Truffle Brown Branson Robinia

Manufacturer product name

EGGER Decorative Collection 2020

Name of the collection

H1253 ST19

Manufacturer Item no.

end of 2022

Product life cycle in the CNW

Short description (max. signs 1100)

The decorative series of the Branson Robinia embodies an elegant decorative image that receives a certain scaled-down appearance thanks to the light planking and linearity. Due to the use of pearlescent pigments and in combination with the texture ST19 Deepskin Excellent, it also displays a certain degree of naturalness. The Truffle Brown Branson Robinia displays a very dark version with a slightly orange-looking pore, which allows good colour combinations with uni decors in this colour intensity.

Eurodekor melamine faced chipboards - Eurodekor is the name used for wood-based boards coated with a decor paper soaked in melamine resin. As well as chipboard the support material can also be made of MDF or lightweight board. Eurodekor boards provide a wide range of possible applications for furniture and interior design. Eurodekor melamine faced chipboard is the standard board for furniture and interior design.

2 | PRODUCT DETAILS

Eurodekor melamine faced chipboard

Product category

wood (70% fresh wood, 30% from recycling wood)

Material A

for furniture and interior design like furniture carcasses, furniture front doors, furniture parts

Application areas

impermeable

Light transmission

ST19 Deepskin Excellent

Structure and gloss level

/

Product class

glue

Material B

elegant wood grain

Haptics

Eurodekor ≥ 1,5N (according to EN14322)

Scratch resistance

Eurodekor bending strength apr. 11N/mm2

Stability

board

Delivery form

N.A.

Fire-protection category

Eurodekor 2800 x 2070 x 8 to 38mm

Dimensions

Eurodekor apr. 12kg/m2 (if 19mm thickness)

Weight per delivery unit

for interior use only

Water compatibility
