

Sustainability Statement

| 1 RAW MATERIALS AND CONSTITUENTS |
|--|
| |
| 1.1. What components or raw materials do you work with? |
| Cellulose fleece |
| 1.2. Where do you source the individual components or raw materials from? From the country of production of this product From the continent where we produce this product X worldwide |
| 1.3. Are the raw materials or components certified or approved according to standards? If so, which ones? |
| Standard 100 by Oeko-TextFSC |
| 1.4. Please clarify the material structure of the final product as well as the material composition expressed in %. |
| Cellulose fleece is made out of: • Cellulose (75-85%) • textile fibre (5-20%) • thickener etc. (2-8%) |
| 1.5. How high is the proportion of renewable raw materials in your product as a %. |
| Cellulose (75-85%) |
| 1.6. What % of your raw materials used are recycled materials? |
| 1.7. Where required, additional comments about where you obtain your raw materials from and their origin: |

2 PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

country of the head office X

in

2.2. Is the production operation certified? If yes, in accordance with which one?

| ISO | 9001 |
|-----|-------|
| ISO | 14001 |
| ISO | 5001 |

2.3. How do you grade production energy consumption?

| igh |
|-----|
| ١ |

2.4. What energy source is used for production?

0 % of power from renewable energy

2.5. What % of renewable energy comes from in-house production?

% of the electricity comes from renewable, self-generated energies

2.6. The production waste is

- for % returned to the production cycle
- for 87 % recycled
- for % broken down organically (organic waste)
- for % thermically recycled (residual waste)
- for % professionally disposed of as specialist
- for waste %

2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?

2.8. Where required, additional comments about how you obtain energy or dispose of waste Our main waste fraction - the catch material - is produced during the sorting of paper fibres in stock preperation and consists of low-quality fibre material that is unsuitable for the production of woodship and paper based wallpapers. This material is recycled in energy generation or in the production of building materials.

| 3 PACKAGING | | |
|---|--------------------------|------------------------------|
| 3.1. What type of packaging do you use? | | |
| disposable packaging reusa we do not package | ble packaging | both disposable and reusable |
| 3.2. Your packaging material for this product | is comprised of | |
| 93 %from renewable materials | 90 % from recycle | ed material |
| 3.3. Type and material, packaging description | | |
| IPET shrink film paper label outer packaging | | |
| 3.4. Your packaging material is produced in | | |
| country of the head office X same intercontinental | e continent where the pr | roduct is produced |
| 3.5. Where required, additional comments ab | out your packaging | |
| 4WAREHOUSING AND LOGISTICS | | |
| 4.1. You produce this product | | |
| as quickly available warehouse goods X | just in time | |
| 4.2. You distribute your product (multiple answe | ers possible) | |
| directly | via wholesale trade (or | nline & stationary) χ |
| via stationary retail trade X | via online retail trade | |
| 4.3. Where required, additional comments ab | out your Green Logisti | c |
| | | |
| | | |
| | | |

| 5 | PRODUCT LIFE CYCLE | |
|----|---|--|
| | 5.1. With proper daily use, your product lasts about | |
| | | |
| | +/- 30 years hours/months/years (operational) | |
| | | |
| | ^{5.2.} How does the product keep its appearance when used at this frequency? | |
| | The product: | |
| | shows traces of use and/or a nice patina | |
| | shows a few traces of use, generally not for a while | |
| | shows rather less traces of use, stays almost unaltered X | |
| | is a consumable and regularly replaced (e.g. candle, soap etc.) | |
| | | |
| | 5.3. What is there to say about care/maintenance? | |
| | can be painted over multiple times | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | 5.4. Where required, additional comments about the life cycle of the product | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| 62 | DISPOSAL AND RECYCLING | |
| 02 | | |
| | 6.1. Can your product be recycled after the life cycle? | |
| | Yes | |
| | No X | |
| | partly, namely | |
| | 6.2. If so, where, for example? | |
| | | |
| | | |

6.3. How can it otherwise be disposed?

return to manufacturer or dealer organic waste recycling centre thermal recycling residuel waste X specialist waste

6.4. Where required, additional comments about disposal and recycling

27 MISCELLANEOUS

What else you would like to say about the product (including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.) carbon footprint for companies: <u>www.ecocockpit.de</u>

- Suitable fpr allergy sufferers, TÜV certificate SEG-2001/06
- OEKO-Tex standard 100 (17.0.06525)
- EPD / Environmental Product Decleration | Decleration number EPD-ESK-20160267-IBC1-DE
- ERFURT is the first wallpaper manufacturer to be a member of the DGNB since 2009
- DIN EN ISO 14001 (environmental management)
