

Sustainability Statement

1 RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

COLORPLAC - Core board BIRKOPLEX - Birch Multiplex through and through - FSC certified rotary cut birch for the top veneer
Lacquering for the finished lacquered surface
Glue for gluing the plywood and the top layer (100% formaldehyde-free)

1.2. Where do you source the individual components or raw materials from?

- country of the head office
 Europe
 globally, namely from:

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

Noble wood is FSC® or PEFC certified
Core board is FSC certified

1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

approx. 95% birch plywood + birch noble wood
approx. 5% glue and lack

1.5. How high is the proportion of renewable raw materials in your product as a percentage

100% - because only sustainable noble wood is used - renewable raw material

1.6. Where required, additional comments about where you obtain your raw materials from and their origin

The raw materials come from Europe

2 | PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office
 Europe
 globally, namely from:

2.2. Is the production operation certified? If yes, in accordance with which one?

We are FSC® and PEFC certified company

2.3. How do you grade production energy consumption?

- low normal high

2.4. What energy source is used for production?

% of power from renewable energy

2.5. The production waste is

% recycled	%
% broken down organically (organic waste)	%
% thermally recycled (residual waste)	%
% professionally disposed of as specialist waste	

2.6. Where required, additional comments about how you obtain energy or dispose of waste

3 | PACKAGING

3.1. Your packaging material for this product is comprised of

90 % from renewable materials 7 % from recycled material
3 % from

2 | PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office
- Europe
- globally, namely from:

2.2. Is the production operation certified? If yes, in accordance with which one?

We are FSC® and PEFC certified company

2.3. How do you grade production energy consumption?

- low
- normal
- high

2.4. What energy source is used for production?

% of power from renewable energy

2.5. The production waste is

% recycled	%
% broken down organically (organic waste)	%
% thermally recycled (residual waste)	%
% professionally disposed of as specialist waste	

2.6. Where required, additional comments about how you obtain energy or dispose of waste

Thermal recycling directly in the company to generate energy (especially heating)
europlac is interseroh certified

3 | PACKAGING

3.1. Your packaging material for this product is comprised of

90 % from renewable materials 7 % from recycled material
3 % from

3.2. You use

disposable packaging reusable packaging both with this product

3.3. Type and material, packaging description

Wooden pallets and cardboard

3.4. Your packaging material is produced in

country of the head office Europe globally

3.5. Where required, additional comments about your packaging

Great emphasis is placed on avoidance of unnecessary packaging and plastic

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

as quickly available warehouse goods just in time

Your product is stored at:

country of the head office
 Europe
 other countries, namely

4.2. You distribute your product

directly via trade both

4.3. Where required, additional comments about your Green Logistic

Our logistics planning places the greatest value on avoiding unnecessary traffic routes and looks for optimal connections.

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

at least 25 years hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

Commercial wood care products.

Can be maintained as normal, like all wood-based materials (if possible, do not use any sharp cleaning agents or cleaning utensils)

5.4. Where required, additional comments about the life cycle of the product

With good care, an extremely durable product - over many decades

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely especially thermal recycling is possible

6.2. If so, where, for example?

via the recycling center

6.3. How can it otherwise be disposed?

- recycling recycling centre residual waste
- organic waste thermal recycling specialist waste
-
-
-

6.4. Where required, additional comments about disposal and recycling

Trouble-free disposal in residual waste - no special waste

7 | MISCELLANEOUS

What else you would like to say about the product

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)

carbon footprint for companies: www.ecockpit.de

FSC® - certified sustainable product

Renewable noble wood material of European and sustainable origin

No tropical wood is used
