

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

Walnut Clear lacquered

1.2. Where do you source the individual components or raw materials from?

- From the country of production of this product
- From the continent where we produce this product
- worldwide

**1.3. Are the raw materials or components certified or approved according to standards?
If so, which ones?**

no

1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

100% solid walnut

1.5. How high is the proportion of renewable raw materials in your product as a %.

99% solid walnut, 1% lacquer

1.6. What % of your raw materials used are recycled materials?

0%

1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

the US

2.1. Where do you produce your product? (please specify also several production locations)

country of the head office

in China

2.2. Is the production operation certified? If yes, in accordance with which one?

no

2.3. How do you grade production energy consumption?

low

normal

high

2.4. What energy source is used for production?

0 % of power from renewable energy

2.5. What % of renewable energy comes from in-house production?

0 % of the electricity comes from renewable, self-generated energies

2.6. The production waste is

for 0 % returned to the production cycle

for 100 % recycled

for % broken down organically (organic waste)

for % thermically recycled (residual waste)

for % professionally disposed of as specialist waste

for %

2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?

-

2.8. Where required, additional comments about how you obtain energy or dispose of waste

-

3 | PACKAGING

3.1. What type of packaging do you use?

- disposable packaging reusable packaging both disposable and reusable
 we do not package

3.2. Your packaging material for this product is comprised of

80 % from renewable materials 50 % from recycled material
% from

3.3. Type and material, packaging description

Cardboard, plastic bags sand foam bags

3.4. Your packaging material is produced in

- country of the head office same continent where the product is produced
 intercontinental

3.5. Where required, additional comments about your packaging

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

- as quickly available warehouse goods just in time

4.2. You distribute your product (multiple answers possible)

- directly via wholesale trade (online & stationary)
 via stationary retail trade via online retail trade

4.3. Where required, additional comments about your Green Logistic

For transporting goods between warehouses we use an electric van.

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

20 years hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

A lacquered surface allows us to play with colors.

Inside the lacquered surface there is either a cast material in zinc or aluminum.

Generally, a lacquered surface is strong, but it's not scratch-resistant.

- Daily cleaning is done with a wrung cloth.
- Avoid pulling hard objects across the surface.
- Never use abrasive cleaning agents such as scouring powder and cream, as it may matt and scratch the surface.
- We discourage the use of any chemicals as it can make that lacquer over time slip from the casted material.

5.4. Where required, additional comments about the life cycle of the product

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

Yes No

partly, namely

6.2. If so, where, for example?

6.3. How can it otherwise be disposed?

return to manufacturer or dealer

organic waste

recycling centre

thermal recycling

residual waste

specialist waste

6.4. Where required, additional comments about disposal and recycling
