

# Sustainability Statement

## 1 | RAW MATERIALS AND CONSTITUENTS

### 1.1. What components or raw materials do you work with?

Raw materials: water  
 Supplier components: dyes and emulsifiers  
 Binders, pigments, thinners, additives, fillers

### 1.2. Where do you source the individual components or raw materials from?

- From the country of production of this product
- From the continent where we produce this product
- worldwide

### 1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

no

### 1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

1. Water 2. Synthetic resins 3. Binders 4. Pigments 5. Fillers such as (calcium carbonate, silicates, quartz powder, etc.) 6. Casul  
 Other ingredients and the % assignments are a secret

### 1.5. How high is the proportion of renewable raw materials in your product as a %.

50%

### 1.6. What % of your raw materials used are recycled materials?

### 1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

## 2 | PRODUCTION

**2.1. Where do you produce your product?** (please specify also several production locations)

country of the head office

in

**2.2. Is the production operation certified? If yes, in accordance with which one?**

no

**2.3. How do you grade production energy consumption?**

low

normal

high

**2.4. What energy source is used for production?**

85 % of power from renewable energy

**2.5. What % of renewable energy comes from in-house production?**

0 % of the electricity comes from renewable, self-generated energies

**2.6. The production waste is**

for 20 % returned to the production cycle

for 50 % recycled

for % broken down organically (organic waste)

for 20 % thermically recycled (residual waste)

for 10 % professionally disposed of as specialist waste

for %

**2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?**

**2.8. Where required, additional comments about how you obtain energy or dispose of waste**

### 3 | PACKAGING

#### 3.1. What type of packaging do you use?

- disposable packaging     reusable packaging     both disposable and reusable  
 we do not package

#### 3.2. Your packaging material for this product is comprised of

          % from renewable materials            2            % from recycled material  
98    % from polypropylene

#### 3.3. Type and material, packaging description

Plastic bucket made from partially recycled polypropylene  
Metall buckets  
Cardboard made from recycled paper  
Filling material foam

#### 3.4. Your packaging material is produced in

- country of the head office     same continent where the product is produced  
 intercontinental

#### 3.5. Where required, additional comments about your packaging

### 4 | WAREHOUSING AND LOGISTICS

#### 4.1. You produce this product

- as quickly available warehouse goods     just in time

#### 4.2. You distribute your product (multiple answers possible)

- directly     via wholesale trade (online & stationary)  
 via stationary retail trade                     via online retail trade

#### 4.3. Where required, additional comments about your Green Logistic

## 5 | PRODUCT LIFE CYCLE

### 5.1. With proper daily use, your product lasts about

2 years (unopened)      hours/months/years (operational)

### 5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

### 5.3. What is there to say about care/maintenance?

store in a cool and dry area

### 5.4. Where required, additional comments about the life cycle of the product

## 6 | DISPOSAL AND RECYCLING

### 6.1. Can your product be recycled after the life cycle?

- Yes     No
- partly, namely

### 6.2. If so, where, for example?

**6.3. How can it otherwise be disposed?**

return to manufacturer or dealer

organic waste

recycling centre

thermal recycling

residual waste

specialist waste

**6.4. Where required, additional comments about disposal and recycling**

LUCID-No. DE50347801202069 (Widu-Farben Menke GmbH)

**7 | MISCELLANEOUS**

**What else you would like to say about the product**

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)
