

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

Eucalyptus - pulp
Titanium dioxide
Mineral fillers
Wet strength
Latex and starch

1.2. Where do you source the individual components or raw materials from?

- country of the head office
 Europe
 globally, namely from: South / North America, Europe, Asia

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

Pulp - FSC®
Chain of Custody by the Forest Stewardship Council A.C.
certified

1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

60-80 % pulp
40 - 20 % titanium dioxide/fillers

1.5. How high is the proportion of renewable raw materials in your product as a percentage

60-80 % pulp

1.6. Where required, additional comments about where you obtain your raw materials from and their origin

2 | PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office
 Europe
 globally, namely from: Europe, Asia, South America

2.2. Is the production operation certified? If yes, in accordance with which one?

ISO 9001, 14001, 45001, 50001
Punctual EMAS

2.3. How do you grade production energy consumption?

- low normal high

2.4. What energy source is used for production?

2 % of power from renewable energy

2.5. The production waste is

92	% recycled	100	%
	% broken down organically (organic waste)		%
7,6	% thermally recycled (residual waste)		%
0,4	% professionally disposed of as specialist waste		

2.6. Where required, additional comments about how you obtain energy or dispose of waste

Accumulated paper sludge is used as a filler in the production of bricks.

3 | PACKAGING

3.1. Your packaging material for this product is comprised of

95 % from renewable materials % from recycled material
% from

3.2. You use

disposable packaging reusable packaging both with this product

3.3. Type and material, packaging description

Carton tubes, carton, kraft paper and adhesive tape

3.4. Your packaging material is produced in

country of the head office Europe globally

3.5. Where required, additional comments about your packaging

Procurement takes place regionally

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

as quickly available warehouse goods just in time

Your product is stored at:

country of the head office

Europe

other countries, namely in the production facilities and external warehouses worldwide

4.2. You distribute your product

directly via trade both

4.3. Where required, additional comments about your Green Logistic

Nach Möglichkeit regionale Produktion und Logistik

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

> 20 Jahre hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

depending on the further processing of our paper (indoor and outdoor)

5.4. Where required, additional comments about the life cycle of the product

depending on the further processing of our paper (indoor and outdoor)

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely depending on further processing and degree of paper refinement

6.2. If so, where, for example?

6.3. How can it otherwise be disposed?

- recycling recycling centre residual waste
- organic waste thermal recycling specialist waste
-
-
-

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS

What else you would like to say about the product
