

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

Solid wood
Steel tube
Diverse accessories

1.2. Where do you source the individual components or raw materials from?

- country of the head office
 Europe
 globally, namely from:

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

Solid wood (oak): FSC certified
Steel tube: DIN 2394

1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

35 % solid wood
60 % steel tube
5 % reinforcing profile, steel profile punched at 3 mm

1.5. How high is the proportion of renewable raw materials in your product as a percentage

35% (wood)

1.6. Where required, additional comments about where you obtain your raw materials from and their origin

-

2 | PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office
 Europe
 globally, namely from:

2.2. Is the production operation certified? If yes, in accordance with which one?

The company is currently not certified. Some products are already TÜV-certified (the product and all different processes).
The Oviedo table is going probably to be certified in 2020.

2.3. How do you grade production energy consumption?

- low normal high

2.4. What energy source is used for production?

0 % of power from renewable energy

2.5. The production waste is

19	% recycled	%
	% broken down organically (organic waste)	%
80	% thermally recycled (residual waste)	%
1	% professionally disposed of as specialist waste	

2.6. Where required, additional comments about how you obtain energy or dispose of waste

All waste of wood is thermally recycled.
If possible, certain parts are returned to production.
Metal parts are sold as scrap iron.

3 | PACKAGING

3.1. Your packaging material for this product is comprised of

50 % from renewable materials 50 % from recycled material
% from

3.2. You use

disposable packaging reusable packaging both with this product

3.3. Type and material, packaging description

Cardboard
Foam to protect the table top's edges
Plastic film and adhesive tape

3.4. Your packaging material is produced in

country of the head office Europe globally

3.5. Where required, additional comments about your packaging

Packaging is purchased regionally (saves long transport).

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

as quickly available warehouse goods just in time

Your product is stored at:

country of the head office
 Europe
 other countries, namely

4.2. You distribute your product

directly via trade both

4.3. Where required, additional comments about your Green Logistic

Orders are grouped for delivery (per customer, per area) to avoid too frequent trips.
Larger table orders are grouped and loaded on pallets (less packaging waste).

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

10-20 years hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

A damp cloth is sufficient to clean the table top and foot.
The sliders can be replaced without any problem.

5.4. Where required, additional comments about the life cycle of the product

The wooden table top can be sanded and so varnished or oiled, if necessary.
The table top and foot can also be replaced separately, if necessary.

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely

6.2. If so, where, for example?

Recycling centre

6.3. How can it otherwise be disposed?

- recycling recycling centre residual waste
- organic waste thermal recycling specialist waste
-
-
-

6.4. Where required, additional comments about disposal and recycling

Table top and metal base can be reused separately, if required.

7 | MISCELLANEOUS

What else you would like to say about the product

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)

carbon footprint for companies: www.ecockpit.de

CO2 report of the company is planned by the end of March.

Measures to improve the CO2 balance are planned by the end of June.
