Product life cycle in the CNW

Short description (max. signs 1100)

Founded in 2009, Neolith, the market-leading brand of Sintered Stone is a revolutionary product which has become
a material of choice for architects, designers, specifiers and fabricators. This pioneering material can be specified for the most
demanding interior and exterior building projects. Combining high-definition detailed decoration with high-performance
qualities, Neolith offers the triple reassurance of strength, beauty and longevity.
Sintered Stone is a 100% natural material based on granite minerals, glass minerals and natural oxides:
1. Granite Materials: Quartz and feldspar, giving hardness and
strength to the surface.
2. Glass minerals and silica, which ensures chemical stability.
3. Natural oxides, which deliver chromatic properties
Neolith is the optimum surfacing material for both indoor and outdoor applications. From a skyscraper façade
to a kitchen worktop, Neolith's physical and mechanical characteristics deliver ultimate performance, unmatched beauty and
long-term value.

2 │ PRODUCT DETAILS

Sintered Stone
Product category

Material A

Kitchen countertops, wall cladding, flooring, facade
Application areas

no change regarding UV light
Light transmission

Structure and gloss level

Product class

Material B

Silk, Satin, decor polished, slate, riverwash
Haptics

PEI III (Satin), ISO 10545-7
Scratch resistance

All details are from the manufacturer. Liability of CNW is excluded.

Not damage according ISO 10545-9

Stability

320x150cm

Dimensions

3 mm, 6mm, 12mm and 20mm thickness

Delivery form

kg/m²: 6mm/15 - 12mm/29 - 20mm/48

Weight per delivery unit

Fire-protection category

< 0,1

Water compatibility

3 | INFORMATION ON PRODUCT CERTIFICATIONS, ECO-LABELS OR DESIGN AWARDS
