

# Sustainability Statement

## 1 | RAW MATERIALS AND CONSTITUENTS

### 1.1. What components or raw materials do you work with?

Product: DecoBoard (melamine faced boards)  
 Wood use: Fresh wood from sustainable forestry, sawmill by-products,  
 post-consumer wood assortments such as recycled wood  
 Decor papers  
 glues, resins, paraffin, binders

### 1.2. Where do you source the individual components or raw materials from?

- country of the head office  
 Europe  
 globally, namely from:

### 1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

Wood from sustainable forestry (FSC, PEFC)  
 Pfeleiderer also implements all the requirements of the EUTR (EU Timber Regulation) and the HolzSiG (German Timber Act), which stipulate the implementation of a due diligence system to prevent the marketing of illegal wood or wood products.

### 1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

Melamine-coated decorative paper (front and reverse side) 5%  
 Base material (chipboard, fibreboard) approx. 95%

### 1.5. How high is the proportion of renewable raw materials in your product as a percentage

approx. 90%

### 1.6. Where required, additional comments about where you obtain your raw materials from and their origin

Wood from sustainably managed forests (FSC, PEFC), also wood chips and sawmill by-products.  
 Wood origin up to 200 km radius around production plants.

## 2 | PRODUCTION

**2.1. Where do you produce your product?** (please specify also several production locations)

country of the head office  
Europe  
globally, namely from:

**2.2. Is the production operation certified? If yes, in accordance with which one?**

**2.3. How do you grade production energy consumption?**

low      normal      high

**2.4. What energy source is used for production?**

% of power from renewable energy

**2.5. The production waste is**

% recycled	%
% broken down organically (organic waste)	%
% thermally recycled (residual waste)	%
% professionally disposed of as specialist waste	

**2.6. Where required, additional comments about how you obtain energy or dispose of waste**

## 3 | PACKAGING

**3.1. Your packaging material for this product is comprised of**

% from renewable materials      % from recycled material  
% from

**3.2. You use**

disposable packaging      reusable packaging      both with this product

**3.3. Type and material, packaging description**

**3.4. Your packaging material is produced in**

country of the head office      Europe      globally

**3.5. Where required, additional comments about your packaging**

**4 | WAREHOUSING AND LOGISTICS**

**4.1. You produce this product**

as quickly available warehouse goods      just in time

Your product is stored at:

country of the head office

Europe

other countries, namely

**4.2. You distribute your product**

directly      via trade      both

**4.3. Where required, additional comments about your Green Logistic**

**5 | PRODUCT LIFE CYCLE**

**5.1. With proper daily use, your product lasts about**

hours/months/years (operational)

**5.2. How does the product keep its appearance when used at this frequency?**

The product:

shows traces of use and/or a nice patina

shows a few traces of use, generally not for a while

shows rather less traces of use, stays almost unaltered

is a consumable and regularly replaced (e.g. candle, soap etc.)

**5.3. What is there to say about care/maintenance?**

**5.4. Where required, additional comments about the life cycle of the product**

**6 | DISPOSAL AND RECYCLING**

**6.1. Can your product be recycled after the life cycle?**

Yes      No

partly, namely

**6.2. If so, where, for example?**

**6.3. How can it otherwise be disposed?**

recycling

recycling centre

residual waste

organic waste

thermal recycling

specialist waste

**6.4. Where required, additional comments about disposal and recycling**

**7 | MISCELLANEOUS**

**What else you would like to say about the product**

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)

carbon footprint for companies: [www.ecockpit.de](http://www.ecockpit.de)
