

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

Recycled PP (Polypropylen)

1.2. Where do you source the individual components or raw materials from?

country of the head office

Europe

globally, namely from:

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

REACH-Compliance

1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

Polymer edgeband made from recycled raw materials

1.5. How high is the proportion of renewable raw materials in your product as a percentage

0%

1.6. Where required, additional comments about where you obtain your raw materials from and their origin

Raw materials come mainly from post-industrial and/or post-consumer sources

2 | PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office
 Europe
 globally, namely from:

2.2. Is the production operation certified? If yes, in accordance with which one?

Information on certification and sustainability can be found at www.rehau.com/sustainability.

2.3. How do you grade production energy consumption?

- low normal high

2.4. What energy source is used for production?

40 % of power from renewable energy

2.5. The production waste is

100 % recycled	100 % manufactured in the product
% broken down organically (organic waste)	%
% thermally recycled (residual waste)	%
% professionally disposed of as specialist waste	

2.6. Where required, additional comments about how you obtain energy or dispose of waste

Information on certification and sustainability can be found at www.rehau.com/sustainability.

3 | PACKAGING

3.1. Your packaging material for this product is comprised of

98 % from renewable materials	% from recycled material
2 % from Polymer/Metall	

3.2. You use

disposable packaging reusable packaging both with this product

3.3. Type and material, packaging description

Pallets and - on customer request - cardboard packaging

3.4. Your packaging material is produced in

country of the head office Europe globally

3.5. Where required, additional comments about your packaging

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

as quickly available warehouse goods just in time

Your product is stored at:

country of the head office
 Europe
 other countries, namely

4.2. You distribute your product

directly via trade both

4.3. Where required, additional comments about your Green Logistic

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

>10 hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

Special plastic cleaners are recommended for cleaning thermoplastic edgebands.
Solvent-containing and alcoholic substances should not be used for cleaning, as they can cause embrittlement or dissolution of the edging material.

5.4. Where required, additional comments about the life cycle of the product

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely after separation of polymeric components and (wood-based material) carrier board

6.2. If so, where, for example?

After material separation, prefabricated component insert of the plastic (PP) technically possible.

6.3. How can it otherwise be disposed?

- recycling recycling centre residual waste
- organic waste thermal recycling specialist waste
-
-
-

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS

What else you would like to say about the product

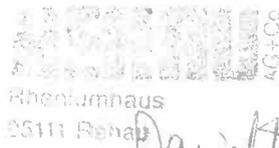

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)
carbon footprint for companies: www.ecockpit.de

REHAU employs Lebenshilfe production places (e.g. Hochfränkische Werkstätten) for all sample productions.

Within all manufacturing and procurement processes, REHAU ensures that REHAU and its partner companies comply with the principles of sustainability, quality assurance and social standards.
