Short description (max. signs 1100)

Neelsen GmbH Holzbearbeitung is a family-operated strong partner for the furniture industry. Operating in different factory sites we produce and distribute high end finished furniture and design elements. Professionalism makes us a good partner as we face our customers' needs - especially lacquered surfaces. Now in biological quality due to our biological waste air depuration. A skilled personnel is working together hand in hand to produce handcrafted specials while state-of-the-art machinery is responsible for serial production. Our new brand SURFACE FACTORY combines common materials like glass, wood, laminate and ceramics for doors, drawers, wall elements, side panels and other decorative parts in best quality.
