

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

wallpaper base, non-woven wallpaper, water based coating and colour systems

1.2. Where do you source the individual components or raw materials from?

- From the country of production of this product
 From the continent where we produce this product
 worldwide

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

FSC® + CE (substrates), REACH (colors and coatings), Timber Regulations (paper and non-woven), B-s I, d0 (according to European fire protection standard EN 13501-1), VOC: A+

1.4. Please clarify the material structure of the final product as well as the material composition expressed in %.

60% non-woven wallpaper
 40% coating and printing inks

1.5. How high is the proportion of renewable raw materials in your product as a %.

ca. 40%

1.6. What % of your raw materials used are recycled materials?

ca. 30%

1.7. Where required, additional comments about where you obtain your raw materials from and their origin:

We always choose the shortest route and only source certified raw materials.

2.1. Where do you produce your product? (please specify also several production locations) country of the head office in**2.2. Is the production operation certified? If yes, in accordance with which one?**

no

2.3. How do you grade production energy consumption? low normal high**2.4. What energy source is used for production?**

50 % of power from renewable energy

2.5. What % of renewable energy comes from in-house production?

% of the electricity comes from renewable, self-generated energies

2.6. The production waste is

for % returned to the production cycle

for 90 % recycled

for % broken down organically (organic waste)

for % thermally recycled (residual waste)

for 10 % professionally disposed of as specialist waste

for %

2.7. What are you doing to treat the water used in production or to reduce your "Water Footprint"?

Thanks to our hybrid production, which is a combination of digital printing and conventional printing techniques, we work very resource-efficiently. We do not need any water for our production machines.

2.8. Where required, additional comments about how you obtain energy or dispose of waste

3 | PACKAGING

3.1. What type of packaging do you use?

- disposable packaging reusable packaging both disposable and reusable
 we do not package

3.2. Your packaging material for this product is comprised of

50 % from renewable materials 50 % from recycled material
% from

3.3. Type and material, packaging description

rolls in polyolefin film
foiled rolls in corrugated cardboard

3.4. Your packaging material is produced in

- country of the head office same continent where the product is produced
 intercontinental

3.5. Where required, additional comments about your packaging

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

- as quickly available warehouse goods just in time

4.2. You distribute your product (multiple answers possible)

- directly via wholesale trade (online & stationary)
 via stationary retail trade via online retail trade

4.3. Where required, additional comments about your Green Logistic

5.1. With proper daily use, your product lasts about

5 years hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

Due to the high quality, no further maintenance is necessary.
Our products are basically water and wash resistant and offer a high light resistance.

5.4. Where required, additional comments about the life cycle of the product

Wallpapers from Hohenberger impress with their outstanding appearance and their exceptionally high quality. This longevity is economical and therefore also sustainable.

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely

6.2. If so, where, for example?

6.3. How can it otherwise be disposed?

- | | | |
|---|--|--|
| <input type="checkbox"/> return to manufacturer or dealer | <input checked="" type="checkbox"/> recycling centre | <input checked="" type="checkbox"/> residual waste |
| <input type="checkbox"/> organic waste | <input type="checkbox"/> thermal recycling | <input type="checkbox"/> specialist waste |
| <input type="checkbox"/> | | |
| <input type="checkbox"/> | | |

6.4. Where required, additional comments about disposal and recycling

Since our wallpapers are 100% PVC-free, they can easily be returned to the ecological and economic cycle.

7 | MISCELLANEOUS

What else you would like to say about the product

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)
carbon footprint for companies: www.ecockpit.de

All of our wallpapers are 100% free of PVC, solvents and softeners.
