

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

Solid wood, steel, glass, leather, textiles

1.2. Where do you source the individual components or raw materials from?

country of the head office

Europe

globally, namely from:

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

Solid wood - EU Timber Regulation (EUTR)

Steel - DIN EN 10025 structural steels

Glass - DIN EN 572 glass in building

Leather - EG Nr. 338/97 (Washington Convention on International Trade in Endangered Species)

1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

Corpus - material content (volume): about 94-97% solid wood, 1-2% steel, 1-2% glass, 1-2% composite wood

Tables - material content (volume): about 99.0-99.9% solid wood, 0.1-1.0% steel

Benches - material content (volume): about 94-98% padding material, 0-2% wood, 0.5-2% steel

Chairs - material (volume): about 60-80% padding material, 10-15% plywood, 5-30% wood, 0.1-0.5% steel

1.5. How high is the proportion of renewable raw materials in your product as a percentage

Corpus furniture about 94-97% (solid wood)

Tables about 99.0-99.9% (solid wood)

Benches about 94-98% (solid wood); Chairs about 15-45% (solid wood + plywood)

1.6. Where required, additional comments about where you obtain your raw materials from and their origin

Almost all used timbers (oak, beech, walnut) are of inner-European origin. Non-European timbers (e.g. small amount of American walnut) have proof of legal origin of wood according to EUTR.

2 | PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

country of the head office

Europe

globally, namely from:

2.2. Is the production operation certified? If yes, in accordance with which one?

The production operation which produces corpus furniture is certified in accordance with EN ISO 9001 and EN ISO 14001. The ones which produce tables and seating furniture do not have any certification.

2.3. How do you grade production energy consumption?

low normal high

2.4. What energy source is used for production?

% of power from renewable energy

2.5. The production waste is

% recycled %

% broken down organically (organic waste) %

% thermally recycled (residual waste) %

% professionally disposed of as specialist waste

2.6. Where required, additional comments about how you obtain energy or dispose of waste

Because of Wimmer Wohnkollektionen exclusively producing furniture of solid wood, waste from production is wood waste without additives up to 90%. This wood waste is an ideal, pollutant-free heating material for the production companies to heat their own production. Some of the production operations also sell the remaining quantities to private households or for industrial preparation. Recyclable waste (e.g. steel, glass, plastic) is going to be recycled.

3 | PACKAGING

3.1. Your packaging material for this product is comprised of

% from renewable materials % from recycled material

% from

3.2. You use

disposable packaging reusable packaging both with this product

3.3. Type and material, packaging description

80% cardboard/paper
20% PE/PP/mixed plastics

3.4. Your packaging material is produced in

country of the head office Europe globally

3.5. Where required, additional comments about your packaging

All packaging material is professionally recycled and reprocessed by a waste-management service according to packaging law VerpackG 01.01.2019.

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

as quickly available warehouse goods just in time

Your product is stored at:

country of the head office

Europe

other countries, namely

4.2. You distribute your product

directly via trade both

4.3. Where required, additional comments about your Green Logistic

Constant optimization of transport routes is only extremely important to us, but also to our freight forwarder, which was awarded with "Eco-Profit" in August 2019.

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

20-25 years hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

The wooden surfaces require regular maintenance. Further information und guidance on this subject can be found under:

<https://wimmer-wohnkollektionen.de/service/service-und-guetepass>

5.4. Where required, additional comments about the life cycle of the product

The care of solid wood furniture is very simple. It's a tough material, which keeps its beautiful appearance as well as its healthy characteristics over years, if you are taking care of it in the right way.

Further information and guidance on this subject can be found under:

<https://wimmer-wohnkollektionen.de/blog/massiv-holz-richtig-pflegen>

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

Yes No

partly, namely

6.2. If so, where, for example?

Solid wood can be used in the production of new products, for example. Steel and glass are recyclable.

6.3. How can it otherwise be disposed?

- recycling recycling centre residual waste
- organic waste thermal recycling specialist waste

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS

What else you would like to say about the product

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)

carbon footprint for companies: www.ecockpit.de

Since the foundation of Wimmer Wohnkollektionen GmbH, the issue of sustainability has been deeply rooted in the company and product philosophy. We stand for natural, sustainable solid wood furniture.
