

# Sustainability Statement

## 1 | RAW MATERIALS AND CONSTITUENTS

### 1.1. What components or raw materials do you work with?

metal (mainly steel)  
epoxy resin powder  
wood-based materials  
plastics

### 1.2. Where do you source the individual components or raw materials from?

- country of the head office  
 Europe  
 globally, namely from:

### 1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

steel: rectangular tube, EN 10305-5 in quality E235+CR2-S2  
epoxy resin powder: RL 2015/863/RU  
wood-based materials: FSC

### 1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

30% metal  
70% wood-based material

### 1.5. How high is the proportion of renewable raw materials in your product as a percentage

85% wood-based material

### 1.6. Where required, additional comments about where you obtain your raw materials from and their origin

## 2 | PRODUCTION

### 2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office  
 Europe  
 globally, namely from:

### 2.2. Is the production operation certified? If yes, in accordance with which one?

For economy, ecology and social issues see [www.decor-metall.de/en/sustainability/](http://www.decor-metall.de/en/sustainability/)  
- DIN EN ISO 9001/2015  
- DIN EN ISO 14001/2015  
- EMAS IV validated and registered

### 2.3. How do you grade production energy consumption?

- low     normal     high

### 2.4. What energy source is used for production?

76 % of power from renewable energy

### 2.5. The production waste is

94	% recycled	%
	% broken down organically (organic waste)	%
6	% thermally recycled (residual waste)	%
	% professionally disposed of as specialist waste	

### 2.6. Where required, additional comments about how you obtain energy or dispose of waste

Metals, cardboard and plastic foils are 100% recycled.  
Cardboard packing is shredded as filling material for packaging itself.

## 3 | PACKAGING

### 3.1. Your packaging material for this product is comprised of

% from renewable materials                      % from recycled material  
% from

**3.2. You use**

disposable packaging     reusable packaging     both with this product

**3.3. Type and material, packaging description**

Euro exchange pallet, one-way pallet, auxiliary carton, corrugated cardboard, shrink foil, cardboard shredder, flopback foil.

**3.4. Your packaging material is produced in**

country of the head office     Europe     globally

**3.5. Where required, additional comments about your packaging**

## 4 | WAREHOUSING AND LOGISTICS

**4.1. You produce this product**

as quickly available warehouse goods     just in time

Your product is stored at:

country of the head office

Europe

other countries, namely

**4.2. You distribute your product**

directly     via trade     both

**4.3. Where required, additional comments about your Green Logistic**

Tour optimization (therefore less kilometres)

Use of low-emission vehicles

DHL GoGreen

## 5 | PRODUCT LIFE CYCLE

**5.1. With proper daily use, your product lasts about**

10 years and longer    hours/months/years (operational)

**5.2. How does the product keep its appearance when used at this frequency?**

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

**5.3. What is there to say about care/maintenance?**

easy to clean  
common household cleaning agents

**5.4. Where required, additional comments about the life cycle of the product**

High-quality processing stands for a long life cycle

## 6 | DISPOSAL AND RECYCLING

**6.1. Can your product be recycled after the life cycle?**

- Yes     No
- partly, namely

**6.2. If so, where, for example?**

Waste disposal company (to the steelworks), recycling yard

**6.3. How can it otherwise be disposed?**

- recycling       recycling centre       residual waste
- organic waste     thermal recycling       specialist waste
- 
- 
-

**6.4. Where required, additional comments about disposal and recycling**

**7 MISCELLANEOUS**

**What else you would like to say about the product**

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)

carbon footprint for companies: [www.ecockpit.de](http://www.ecockpit.de)

For economy, ecology and social issues see [www.decor-metall.de/en/sustainability/](http://www.decor-metall.de/en/sustainability/)
