### Short description (max. signs 1100)

Ahlstrom-Munksjö is a leading global manufacturer of innovative and sustainable decor paper for the entire laminate and woodworking industry including solid colors, print base and pre-impregnated .

After further processing steps at our customers, our dyed-through solid color decor papers enable design and surface upgrades for wood-based substrates used in the production of office or home laminate furniture, laminate flooring and other interior and exterior design wood-based panels.

Our aim is to support our customers with sustainable papers in current trend colors. Sustainability determines all our actions; we focus on future oriented and environmentally friendly production and constant improvement of our ecological footprint, e.g. by further reducing our energy and water consumption.
