

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. What components or raw materials do you work with?

Wood
Glue, wax, oil, water, paint

1.2. Where do you source the individual components or raw materials from?

- country of the head office
 Europe
 globally, namely from:

1.3. Are the raw materials or components certified or approved according to standards? If so, which ones?

EU Timber Regulation No 995/2010
PEFC Programme for the Endorsement of Forest Certification
FSC® Forest Stewardship Council

1.4. Please clarify the material structure of the final product as well as the material composition expressed in percentage

95% wood
3% glue, paint, varnish

1.5. How high is the proportion of renewable raw materials in your product as a percentage

95% recycled wood

1.6. Where required, additional comments about where you obtain your raw materials from and their origin

Our precious woods and raw materials come from sustainable, certified and therefore responsibly managed forests (PEFC and FSC®).

2 | PRODUCTION

2.1. Where do you produce your product? (please specify also several production locations)

- country of the head office
 Europe
 globally, namely from:

2.2. Is the production operation certified? If yes, in accordance with which one?

europlac is an FSC® and PEFC certified company.

2.3. How do you grade production energy consumption?

- low normal high

2.4. What energy source is used for production?

70 % of power from renewable energy

2.5. The production waste is

90 % recycled %
% broken down organically (organic waste) %
% thermally recycled (residual waste) %
10 % professionally disposed of as specialist waste

2.6. Where required, additional comments about how you obtain energy or dispose of waste

The thermal utilization of the wood waste supplies our production facility with energy.

3 | PACKAGING

3.1. Your packaging material for this product is comprised of

90 % from renewable materials 7 % from recycled material
3 % from plastic packaging tapes

3.2. You use

disposable packaging reusable packaging both with this product

3.3. Type and material, packaging description

Wooden pallets and cardboard
ECO tapes made from recycled paper
Foil

3.4. Your packaging material is produced in

country of the head office Europe globally

3.5. Where required, additional comments about your packaging

interseroh certification - zero waste solutions
Packaging requiring system participation in a dual system

4 | WAREHOUSING AND LOGISTICS

4.1. You produce this product

as quickly available warehouse goods just in time

Your product is stored at:

country of the head office
 Europe
 other countries, namely

4.2. You distribute your product

directly via trade both

4.3. Where required, additional comments about your Green Logistic

Our logistics attach great importance to optimal connections.

5 | PRODUCT LIFE CYCLE

5.1. With proper daily use, your product lasts about

at least 25 years hours/months/years (operational)

5.2. How does the product keep its appearance when used at this frequency?

The product:

- shows traces of use and/or a nice patina
- shows a few traces of use, generally not for a while
- shows rather less traces of use, stays almost unaltered
- is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. What is there to say about care/maintenance?

Commercial wood care products

5.4. Where required, additional comments about the life cycle of the product

With good care, an extremely durable product - over many decades

6 | DISPOSAL AND RECYCLING

6.1. Can your product be recycled after the life cycle?

- Yes No
- partly, namely

6.2. If so, where, for example?

Recycling in the wood industry, e.g. in the chipboard manufacture.

6.3. How can it otherwise be disposed?

- recycling recycling centre residual waste
- organic waste thermal recycling specialist waste
-
-
-

6.4. Where required, additional comments about disposal and recycling

7 | MISCELLANEOUS

What else you would like to say about the product

(including social-responsibility and environmental standards, ecological analyses, carbon footprint, certification, standards, environmental management systems etc.)

carbon footprint for companies: www.ecockpit.de

Our products can also be manufactured according to the LEED and GREEN BUILDUNG conditions.
