COLOR NET WORK®

COLORNETWORK-Product Code: **153 10 26 32 1**

Sustainability Statement

1 | RAW MATERIALS AND CONSTITUENTS

1.1. **What components or raw materials do you work with?**

We work with FSC-certified wood, including oak or smoked oak, vegan linen coloured with plant extracts, metal components and electrical components.

1.2. **Where do you source the individual components or raw materials from?**

- ☐ From the country of production of this product
- ☒ From the continent where we produce this product
- ☐ worldwide

1.3. **Are the raw materials or components certified or approved according to standards? If so, which ones?**

The wood is FSC-certified. The linen is vegan certified and coloured with plant extracts.
The collection is made with reduced water discharge.

1.4. **Please clarify the material structure of the final product as well as the material composition expressed in %.**

The Heartwood table lamp consists of a solid wood base, a linen shade, metal components and electrical components. Approximate composition: 30% electrical components, 20% wood, 40% vegan linen and 10% metal frame.

1.5. **How high is the proportion of renewable raw materials in your product as a %.**

about 30 %

1.6. **What % of your raw materials used are recycled materials?**

We do not use recycled materials.

1.7. **Where required, additional comments about where you obtain your raw materials from and their origin:**

2 | PRODUCTION

2.1. **Where do you produce your product?** (please specify also several production locations)

☐ country of the head office

☒ in Europe

2.2. **Is the production operation certified? If yes, in accordance with which one?**

The linen is vegan certified and the wood is FSC-certified

2.3. **How do you grade production energy consumption?**

☒ low ☐ normal ☐ high

2.4. **What energy source is used for production?**

% of power from renewable energy

2.5. **What % of renewable energy comes from in-house production?**

% of the electricity comes from renewable, self-generated energies

2.6. **The production waste is**

for % returned to the production cycle

for 20 % recycled

for 40 % broken down organically (organic waste)

for % thermically recycled (residual waste)

for % professionally disposed of as specialist waste

for %

2.7. **What are you doing to treat the water used in production or to reduce your "Water Footprint"?**

Efforts have been made to reduce energy consumption, and water usage has been minimized with eco-friendly linen. Plant extracts are used to dye the linen yarn, ensuring that no unnecessary chemicals are used or released.

We strive to give something back to nature and minimize our CO2 footprint by planting trees through ForestNation. For every lamp sold, a new tree is planted.

2.8. **Where required, additional comments about how you obtain energy or dispose of waste**

3 | PACKAGING

3.1. **What type of packaging do you use?**

☐ disposable packaging ☒ reusable packaging ☐ both disposable and reusable

☐ we do not package

3.2. **Your packaging material for this product is comprised of**

70 % from renewable materials % from recycled material

% from

3.3. **Type and material, packaging description**

We use cardboard for the lamp. The linen shade and wooden base are wrapped or protected with paper to avoid plastic. We use recycled paper for customer letters. We also include a small plant kit in a biodegradable cup with soil and two tree seeds, so the customer can plant a tree of their own.

3.4. **Your packaging material is produced in**

☐ country of the head office ☐ same continent where the product is produced

☒ intercontinental

3.5. **Where required, additional comments about your packaging**

4 | WAREHOUSING AND LOGISTICS

4.1. **You produce this product**

☒ as quickly available warehouse goods ☐ just in time

4.2. **You distribute your product** (multiple answers possible)

☒ directly ☒ via wholesale trade (online & stationary)

☐ via stationary retail trade ☐ via online retail trade

4.3. **Where required, additional comments about your Green Logistic**

5 | PRODUCT LIFE CYCLE

5.1. **With proper daily use, your product lasts about**

10-15 years hours/months/years (operational)

5.2. **How does the product keep its appearance when used at this frequency?**

The product:

- ☐ shows traces of use and/or a nice patina
- ☒ shows a few traces of use, generally not for a while
- ☐ shows rather less traces of use, stays almost unaltered
- ☐ is a consumable and regularly replaced (e.g. candle, soap etc.)

5.3. **What is there to say about care/maintenance?**

The linen shade can be cleaned with a soft cloth or gently with a dusting brush. The oak or smoked oak base can be wiped with a soft, dry cloth. Avoid using cleaning agents on the lamp.

5.4. **Where required, additional comments about the life cycle of the product**

Linen shade: Linen is durable but may be affected by dust, moisture and light. With correct use, it can last for many years. Gentle wiping and careful handling extend its lifespan.

Wooden base: The oak or smoked oak base is finished with OSMO matt oil/wax and can be gently wiped with a soft, dry cloth.

Electrical components: The light source and cable typically last 1,000 to 2,000 hours, depending on type and use.

6 | DISPOSAL AND RECYCLING

6.1. **Can your product be recycled after the life cycle?**

☐ Yes ☐ No

☒ partly, namely Metal shade frame

6.2. **If so, where, for example?**

The metal shade frame can be reused, and some electrical components may be handled separately.

6.3. **How can it otherwise be disposed?**

- ☐ return to manufacturer or dealer
- ☒ recycling centre
- ☐ residuel waste
- ☒ organic waste
- ☐ thermal recycling
- ☐ specialist waste
- ☐
- ☐

6.4. **Where required, additional comments about disposal and recycling**

The linen shade should be disposed of as bio waste where local rules allow. The wooden base and metal frame should be handled according to local recycling rules.

7 | MISCELLANEOUS
