MILES AHEAD

Endless ways to make a statement

It's not hard to see that MILES is once again light years ahead of the rest. Because this minimalistic luminaire is already sporting the trends that will be hanging on every wall next season: Its covers made of exquisite marble and various colours are sure to turn heads. The other surprises MILES has to offer? Three different shapes (round, carré, and long) and two sizes that can be individually combined with one another, turning even the most austere wall into an absolute eye-catcher. Très chic!"
